

Journey into the Mystery #11 Beneath the Veils of Illusion

with Carole Burstein, PhD & Robert Litman, CBA

June 20-24, 2019

Maui, Hawaii

To register contact: Carole 808.891.8662 or Robert 206.707.1639

How do we know what is 'true' about ourselves, each other, the world, the Source of Life? **H**ow do we access the hidden facts whose cover-up become family patterns handed down from generation to generation? **H**ow do we discern truth from illusion?

When we dare to meet the specific assumptions that unconsciously determine our decisions, actions and opinions, those very illusions about life can become portals to an entirely new perspective on all the experiences we humans are capable of accessing.

In this workshop we will learn to sift through the mechanisms of our meaning-making to discover the revelatory truths that enable us to shift from the consensual good/bad/right/wrong paradigm rooted in fear, to the love-based paradigm of resonance.

JTM workshops are, in fact, trainings – (way-showing). The workshop is the Laboratory for exploring, discovering, practicing new skills in a safe container...and then we take it all out into the wild, uncontained chaos of Life.

In this 11th Journey into the Mystery we will be reviewing, building upon and deepening skills for using ANY moment of life's circumstance as a portal for transforming suffering into a meaningful, purposeful, valuable experience. This results in an ability to navigate whatever life brings us with more agency, responsibility, ease and joy.

For this adventure we have a completely new, non-residential format:

- Two optional 10 am-5 pm Continuum-based days. We prepare the vessel of our body/psyche to receive the transformative possibilities beneath our veils of illusion
- Three days, noon through late evening, journeying to the truths below our veils. Practicing skills of experiencing the veils as portals, increases our self-honesty, opens us to more freedom, joy, consciousness and capacity to love.

This format allows the option of participating only in the 3-day Journey or, opting for the 2 preparatory days of expanded sensory awareness and increased receptivity or all 5 days.

Meals: For the two-day Continuum based workshop bring your own lunch and snacks.

For the three-day Journey into the Mystery mid-day meal and late soup will be provided.
